INTRODUCTION

I am a graduating M.S. Economics student with a strong analytical foundation and ability to think across disciplines. Outside of school I work as a world music radio DJ at my campus radio station and as a server in fine dining restaurants, both of which have refined my instincts for curation and quality. In my free time I love learning new languages, cooking, and writing.

EDUCATION

University of Oregon M.S., Economics	Eugene, OR June 2026
University of Oregon B.S., Economics	Eugene, OR June 2025

RELEVANT EXPERIENCE

Office of Senator Ron Wyden <i>Intern</i>	Eugene, OR February 2026 – Present
- Participated in funding evaluations for multi-million dollar projects across Oregon, documenting meetings and engaging directly with stakeholders. - Drafted and updated briefings used by the Senator in official meetings. - Managed constituent communications via phone and email, including in-the-moment conflict resolution.	
University of Oregon, Dept. of Economics <i>Research Assistant</i>	Eugene, OR June 2024 – December 2024
- Coded reusable templates in R for problem sets and solution keys now used in undergraduate econometrics courses. - Cut professor's manual editing time for course materials by 70% per term.	
Kachka / Lion & Owl / The Paddock <i>Fine Dining Server</i>	Portland / Eugene, Oregon 2022 – 2026
- Provided warm, attentive service in fast-paced upscale dining settings. - Stayed organized and positive during rushes, prioritizing tasks in real time across competing demands. - Coordinated with sommeliers, kitchen staff, and managers to ensure excellent and efficient service.
